

HAZRAT ALI

Full Stack Developer | Python, Django, React, Odoo ERP

Islamabad, Pakistan | +92 349 9001990 | HazratAli.bse@gmail.com

Portfolio: hazratAli.is-a.dev | GitHub: github.com/Hazrat-Ali822 | LinkedIn: linkedin.com/in/hazrat-ali-49a0aa267

SUMMARY

Full stack developer who builds complete web apps, from Django and DRF backends to React front ends, and also sets up Odoo ERP for real businesses. Built SehatYar, a hospital management system live at sehatyar.online, and a POS system that is now used in several retail and wholesale shops. At MUST Services I set up and customize Odoo so a client company can run its daily operations from one place. Business development work has also taught me how to talk to clients and turn what they ask for into a clear plan. Graduated in Software Engineering from COMSATS with a 3.50 CGPA, and looking for a full stack role where the work goes to real users.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java, C#, C++

Backend: Django, Django REST Framework, FastAPI, Laravel, REST API design, JWT authentication

Frontend: React.js, HTML, CSS, Tailwind CSS

ERP / POS: Odoo (setup and customization for sales, inventory, accounting), POS and inventory systems

AI & Data: LLM API integration, NLP, TF-IDF, vector embeddings, web scraping, Pandas, Scikit-learn, OpenCV

Databases: PostgreSQL, MySQL, MongoDB, SQLite

Tools: Git, GitHub, Docker, VS Code, Agile

Spoken: English (Fluent), Urdu (Native), Pashto (Native)

WORK EXPERIENCE

Software Engineer, MUST Services

Mar 2026 – Present

- Set up and customized Odoo ERP modules for sales, inventory and accounting, so the client runs its operations in one system.
- Built **Valora Beauty**, a Django and DRF online store with catalog, cart, checkout and JWT login.
- Designed REST APIs and SQL schemas for client projects and turned their requirements into working software.

Business Developer, Khabir Consultant

Jul 2026 – Present

- Find and reach out to potential clients through LinkedIn, email and direct contact, and manage leads and follow-ups in the sales pipeline.
- Work with clients to understand what they need, then coordinate with the team to prepare proposals and service offers.

Business Developer, MMALL

Mar 2026 – Jun 2026

- Generated and qualified new leads, presented offerings to prospective clients, and handled communication from first contact to closing.
- Helped onboard partners and clients, and researched the market and competitors to shape outreach plans.

Python Developer, Hifaah Technologies

Jun 2025 – Oct 2025

- Built backend features and REST APIs in Django and DRF, and handled database work for client web apps.
- Worked with the team to track down bugs and speed up slow parts of the application.

PROJECTS

SehatYar: Hospital Management System (sehatyar.online)

Django, DRF, React, MySQL

- Live system for hospitals with patient records, doctor appointments, pharmacy stock and billing.
- Worked on the whole thing, from database and API design to the React frontend and deployment.

Retail & Wholesale POS System

JavaScript, PWA

- Point-of-sale system running in multiple shops, with barcode scanning, thermal receipts, cashier shifts, cash ledgers, live stock tracking and date-wise sales reports.

Trend Sphere: AI Trend Analysis Platform (Final Year Project)

Django, LLMs, NLP

- Collects trending topics from X and Google Trends through APIs and scraping, cleans the noisy text, and groups related trends using TF-IDF and embeddings.
- Uses an LLM to write a short summary for each group, so a user can understand a trend without reading hundreds of posts.

School Management ERP

Django, DRF, PostgreSQL

- Role-based portal for admins, teachers, students and parents with attendance, grading and fee management.

Other projects: Background Remover (OpenCV, remove.bg API, MongoDB), Book Library REST API with JWT (DRF), QR code scanner (OpenCV, Pyzbar), Student Management System (Laravel, MySQL), React e-commerce frontend, and smaller apps in Java, C++ and C#.

EDUCATION

BS Software Engineering, COMSATS University Islamabad (Abbottabad)

2022 – Jan 2026

CGPA: 3.50 | Coursework: Software Architecture, Algorithms, Database Systems, Distributed Computing
